

Title & Introduction

IOXA: The Intelligence Hub Powering Safer Web3

IOXA is a Web3 SaaS analytics platform delivering real-time AI-driven insights for tokens, wallets, and projects—making blockchain data accessible, verifiable, and secure. Flagship application: OxPay, the rewarding cashback crypto wallet fully powered by IOXA's analytics engine.

Launching January 2026.

The Problem

Web3 adoption is surging, but major pain points persist:

Billions lost annually to scams, rug pulls, and honeypots.

Opaque on-chain data and lack of real-time transparency.

Tools too complex for retail users; whale movements hard to track.

Everyday crypto use lacks rewards and built-in intelligence.

Without intuitive, AI-powered safeguards, mass adoption remains blocked.

The Solution

IOXA provides an all-in-one platform:

AI-powered real-time analytics, rug detection, and risk scoring.

Seamless tracking of wallets, tokens, whales, and projects.

Developer-friendly APIs for integrations.

OxPay brings it to users: A non-custodial crypto wallet with cashback rewards on transactions, enhanced by IOXA's alerts and insights for safer spending/swaps.

One ecosystem: Intelligence + Everyday Utility.

Product Features

Core IOXA Features:

- Real-time wallet/portfolio tracking & instant alerts.
- AI rug/honeypot detection + project verification scores.
- On-chain analytics, whale monitoring, and predictive trends.
- API for dApps, wallets, and partners.

OxPay Exclusive Features:

- Cashback rewards on swaps, spends, and transactions.
- Embedded IOXA insights: Risk alerts before trades.
- Intuitive mobile-first interface for beginners.

Market Opportunity

Massive dual-market tailwinds:

Broader Blockchain Market:

Broader Blockchain Market: ~\$31–58B in 2025, exploding to \$393B–\$1.4T by 2030 (CAGR 43–90%).

Crypto Wallet Market:

Crypto Wallet Market: \$4–18B in 2025, growing to \$56–153B by 2035 (CAGR ~25–30%).

Analytics subset growing rapidly with demand for AI-driven tools.

Target: 300M+ global crypto users in 2025, plus institutions entering Web3.

Business Model

Freemium SaaS (IOXA): Free basic access → Pro/Enterprise subscriptions + premium API.

Ecosystem Monetization (OxPay): Transaction cashback funded by partnerships/fees; upsell premium features.

Additional: White-label integrations, partnerships with dApps/exchanges.
High-margin, scalable with viral growth via rewarding wallet adoption.

Traction (As of Dec 2025)

Community: @loxa_io – 4,393 followers | @Oxpay_ – 3,248 followers (combined growing rapidly).

Active engagement: Giveaways, AMAs, joint campaigns driving waitlist signups.

Beta feedback: Strong praise for AI rug detection and OxPay's seamless cashback + alerts.

Partnerships in discussion; pre-launch momentum building toward Q1 2026 launch.

Competitive Edge

IOXA + OxPay stands out with:

AI-First Retail Focus: Unlike enterprise-heavy Chainalysis or complex Nansen/Dune.

Integrated Rewards: No direct competitor combines advanced analytics with cashback wallet utility.

Accessibility: Beginner-friendly UI vs. pro-only tools.

We bridge intelligence and daily use—creating network effects others lack.

Team & Vision

Our Mission

Make Web3 safer, simpler, and more rewarding for everyone.

Driven by a Focused Team

- Passionate builders with hands-on experience in AI-driven analytics, reward systems, wallet infrastructure, and community growth
- Proven track record in rug detection, real-time alerts, and seamless cashback mechanics
- Supported by veteran advisors in DeFi, payments, and blockchain scaling

Building World-Class Execution

With seed funding, we are rapidly expanding the core team:

- Hiring top blockchain engineers and AI specialists
- Onboarding growth and product leads with deep Web3 expertise
- Strengthening strategic partnerships for launch and beyond

We bridge intelligence and everyday utility—creating the essential layer for Web3's next billion users. IOXA

The Ask

Seeking \$2M Seed to:

- Complete development & launch IOXA platform + OxPay app (Jan 2026).
- Accelerate marketing, community, and user acquisition.
- Expand team (AI/blockchain engineers, growth).

Join us in building the essential intelligence layer for Web3's next billion users.
